

Kings Heath Business Improvement District
will seek to work with
West Midlands Police
to help deliver improvements to
The Birmingham Community Safety Partnership Delivery Plan
And
Neighbourhood Policing

The priority will be delivery against the 5 strategic priorities as identified within the Business Crime Delivery Plan:

1. Work will be undertaken to reduce business related crime with greater emphasis on offender management interventions, crime prevention initiatives and working more collaboratively with businesses
2. Priority will be given to continuing to reduce crime and anti-social behaviour relating to:
 - The Night Time Economy, young people will be encouraged to engage through more innovative ways.
 - The Day Time Economy, providing a partnership response to the business crime and anti-social behaviour that impact upon day time economy areas. Particular focus will be given to retail crime, cash in transit and commercial robberies, and public place nuisance.
3. Work will continue to reduce crime and anti-social behaviour on the public transport network to increase passenger confidence and safety
4. Work will be undertaken to understand the nature and extent of emerging business threats of cybercrime and fraud, including Trading Standards violations, ensuring a dual focus on business crime and personal victimisation.
5. New relationships will be developed with businesses:
 - To encourage a focus on community safety via existing forums such as our Business Improvement Districts
 - To promote corporate social responsibility and encourage business participation in local community safety programmes and support the Birmingham Business Charter for Social Responsibility

Kings Heath Business Improvement District will work alongside the West Midlands Police Neighbourhood policing unit for Kings Heath

Basis for the BID/Police Agreement

- This baseline has been prepared in good faith using information supplied in November 2017. In line with good BID industry practice, this baseline will be reviewed annually through a meeting held between the BID Manager and Inspector Neil Kirkpatrick.
- The meeting will provide an opportunity to monitor that the services are still being carried out to the same specification as outlined in the baseline and to share information on any potential changes to service provision in the future. There will also be an opportunity for the BID to provide an update on the services that are delivered directly via the BID that have a correlation with the statutory baselines.
- Whilst no service level can be guaranteed throughout the five-year BID Term, statutory agencies will not use the BID levy as an opportunity to disproportionately reduce services within the BID area.

The Police agrees to the following:

- a) To provide the services within the BID area at its own cost;
- b) In the event that the Police is unable to continue to provide all or part of the services within the BID area on account of it being barred from doing so or unable to do so for any other reason or it having insufficient funds to secure the provision of any or those services set out in the baselines, it shall carry out the following for the BID Company:
 - i) identify which part or parts of the services it is unable to provide;
 - ii) provide a detailed explanation of why such service is to be withdrawn;
 - iii) state the date upon which the Police will cease to provide the services

Birmingham Community Safety Partnership through the local community safety partnership will take a strategic approach to Business Crime to help inform a collective approach to the development and implementation of strategic priorities and to work with businesses to reduce and prevent crime that affects them; to identify persistent offenders and organised crime groups; Utilise Integrated Offender Management across the range of CJ disposals and civil interventions; to improve the experience and safety of shoppers, visitors and business by adopting a partnership problem solving approach to reducing nuisance, environmental issues and ASB caused by begging, street drinking, rough sleepers and share intelligence / information with businesses and partners to plan events, support local plans and Improve the wider local economy
